

## SKAW knife-whistle

### Features:

- Comes with a snap-on cap and 30" ball-chain for use as a neck-knife, or optional easy-open cap for use as a pocket knife. Either configuration can be easily opened with one hand.
- Rounded snap-on cap creates non-threatening appearance so that it does not look like a knife when worn around the neck
- Compact and lightweight
- Ergonomic – edges are rounded to eliminate hotspots
- Extremely loud tri-tone whistle with distinctive warble
- Blade is easily replaceable – remove the pin with a pen or nail then pull out the blade
